

TradeStation Rated Best Direct-Access Stock Brokerage and Best Futures Brokerage

TradeStation Wins 9 Major Awards

Plantation FL, February 22, 2007 — TradeStation has won the Readers' Choice Awards for best **Direct-Access Stock Brokerage** for the fifth year in a row, over competitors that included Charles Schwab's Cybertrader, Fidelity Active Trader Pro, and Interactive Brokers, and has won best **Futures Brokerage** for the third year in a row, over competitors that included Interactive Brokers, Lind-Waldock, Man Futures, and R.J. O'Brien. The Readers' Choice Awards are given by *Technical Analysis of Stocks and Commodities* magazine, one of the most respected periodicals for active traders. TradeStation was also rated higher as a **Stock Brokerage** overall – not as just a direct-access brokerage – than Charles Schwab, E*Trade, Fidelity Brokerage, OptionsXpress, Scottrade Financial Services and TD Ameritrade.

TradeStation also won, for the fifth consecutive year, the Readers' Choice Awards for best **Institutional Platform** and best **Professional Platform**. The finalists in those other categories included Bloomberg and Reuters for Institutional Platform, and CQG and Schwab's CyberTrader for Professional Platform.

In addition, TradeStation won, for the third year in a row, the Readers' Choice Awards for best **Trading Systems – Stocks**, best **Trading Systems – Futures**, best **Trading Systems – Options**, and best **Options Analysis Software** and, for the fourth consecutive year, best **Subscription Internet Analytical Platform**.

"Having the readers of a publication as respected as *Technical Analysis of Stocks and Commodities* rate us number one in nine different categories, particularly up against some of the largest and most well-known companies in our industry, is a great honor," said Salomon Sredni, CEO of TradeStation Group, the parent company of TradeStation Securities and TradeStation Technologies.
